

## January 2018 – Rudi G.

Rudi started on the opening team for BreWingZ – North Park over 2 years ago and has been with the company ever since. She works as a server, bartender, and Key Manager. No matter the position scheduled, the staff looks towards her as a leader, “I take a lot of pride in my job, and it shows. The staff knows that if I do not have the answer they need, I will look to find one.” The service industry has always been of interest to her, “I enjoy how it changes every day. It’s always something new. I enjoy meeting new people, getting to know them, and seeing them become regulars.”

Rudi is known to set a positive vibe around the workplace, “you’ll always get a hello, you’ll always get a goodbye”, her co-workers say. Her kindness is extended from the front of the house, to the back of the house, and definitely to BreWingZ guests, “I genuinely care about the people in my life – other servers, the kitchen staff, my regulars. I genuinely want to know that they are not only doing well here at work, but at home as well.” Rudi is a true representation of the BreWingZ team as she continues to express that “If you come in, staff or guest, and there is some way I can help, let me know, I’m here to help.”

With such a focus on helping others, it is no surprise that Rudi is studying to become a physical therapist. She has always been an athlete, trying everything from soccer, to volleyball, to powerlifting. With interests in both athletics and health, and her drive to help others, she knew this career path would be a good fit for her. When she’s not working or at school, Rudi dedicates her time to her family, “We play bingo, basketball, and recently my son got me into Minecraft.” She also can’t leave out what a huge fan she is of the Houston Astros, “I’ve been watching them since I was young. I was actually working at BreWingZ the night they won, the entire restaurant went absolutely crazy!”

BreWingZ is proud to have Rudi as part of the BWZ team. Go ‘Stros!
